- Maintain existing features and develop frontend and backend functionality.
- Work with React, Node.js, Prisma database migrations, Azure DevOps, and Flyway.

Junior Front-end Developer

SBCOMPINC / INTERCARD September, 2022 – May, 2024

- Developed and modified web application software solutions using Angular and ASP.NET Core.
- Integrated third-party APIs and payment processors into web applications.
- Supported website localization and maintained existing application features.
- Developed frontend and backend features for e-commerce applications.

SELECTED PROJECTS

E-commerce Platform

Customer-facing e-commerce application allowing customers to purchase game cards, packages, or gift cards from their phone or home. Maintained existing features and developed frontend and backend functionality.

Tech: Microsoft .NET Core Framework, Angular, MSSQL, Azure DevOps

E-commerce Administration Platform

Internal management platform supporting administrative, operational, and support functions within an application ecosystem.

Tech: REST, WCF

Real-Time Operations Monitoring API

API supporting reporting, forms submission, QR-code scanning, and real-time updates through WebSocket integration. Supports monitoring of operational progress through a dashboard.

Tech: Node.js, Prisma, Socket.IO, Azure DevOps, Flyway

Customer Website — Flower Arrangement Automation

Customer-facing web application for flower arrangement automation.

Tech: Progressive Web App Framework (Angular)

Customer Mobile App — Flower Arrangement Automation

Mobile application supporting flower arrangement automation.

Tech: Ionic Framework

Florist Mobile App

Mobile applications supporting order payment verification.

Tech: Ionic Framework

Administration Website — Flower Business

Administrative website for tracking sales through graphs and table monitoring, including an export data table function.

Tech: Progressive Web App Framework (Angular)

Mu Sigma Phi Sorority Website

Sorority website with content management functionality.

Tech: CMS

TECHNICAL SKILLS

Core Development

Angular2+, JavaScript, TypeScript, C#, ASP.NET Core, HTML5, CSS3, Laravel, Bootstrap

Backend & Data

Node.js, MSSQL, REST, WCF, Prisma, Socket.IO, Azure DevOps

Mobile

Ionic Framework

Payment Processors

Skipcash, Stripe, PayFort, Transbank, WebPay, PayU, Cybersource, MITEC, OrkestraPay, Elavon

Quality, Accessibility & Analytics

WCAG, ADA compliance, Cypress, SonarQube, Compodoc, Unit Testing, Google Tag Manager, Google Analytics, Google Ads conversion tracking, Meta conversion tracking

Localization & Marketing

Website Localization, Klaviyo Email Marketing

Other Technologies

Speech synthesis, Wacom STU-430, Photoshop, Illustrator, Figma, Microsoft Word, Excel, PowerPoint

AI Platforms & Practices

Anthropic Claude, Claude for enterprise development, Prompt Engineering, AI Workflow Automation, Structured AI Outputs, AI accuracy and validation, AI security and privacy, Responsible AI use in enterprise applications

EDUCATION & ACHIEVEMENTS

Bachelor of Science in Computer Science — Gordon College, Olongapo City (2018–2022)

STEM Strand — Columban College Asinan, Olongapo City (2016–2018)

- Dean's List — First Year, First Semester, A.Y. 2018–2019.
- Fourth Place — RAITE 2021 Programming Challenge, sponsored by iPhiTech IT and Digital Solutions.
